

f-cell+HFC 2020 postponed to Autumn

Join us in Vancouver on September 9+10, 2020

April 1, 2020

Dear f-cell+HFC stakeholders and f-cell+HFC 2020 attendees,

Due to current developments concerning the corona virus (COVID-19), we have consulted with our partners and decided to further postpone f-cell+HFC 2020. **We are pleased to have secured a new date of September 9+10, 2020, at the Vancouver Convention Centre** to host this year's Hydrogen and Fuel Cell Event.

Each country and region is currently at various levels of travel, work and conference restrictions, and we understand how each f-cell+HFC 2020 attendee has had to make many adjustments. As you know, the health and well-being of our conference partners, participants and staff is at the centre of our event planning. Even with the expectation of an improved situation in the coming months, we are preparing to host the event with all precautionary measures recommended by Health Canada.

Going into the fall of 2020, we anticipate many in the industry will be in need of inspiration that a conference like f-cell+HFC can provide. For this, we will be happy to offer a thought provoking program with speakers from across the Hydrogen and Fuel Cell industry and an exciting international trade fair. We hope you can make this your first conference of the season.

Please take note of the following: If you have already registered for f-cell+HFC 2020, your registration will move automatically to the new date. Feel free to [contact us](#) if this no longer works for you. Also, make sure to sign up for the [f-cell+HFC mailing list](#) to receive the latest conference information.

Thank you for your support and trust! We look forward to seeing you in September.

Yours truly,

Mark Kirby, President, CHFCA
Peter Sauber, CEO, PSA
